The most innovative projects involving significant transatlantic mobility, collaborative research activities, the organization of joint workshops or conferences, the publication of joint articles, and the participation of younger researchers (PhDs) will receive the highest priority.

The grant will cover travel expenses between France and the US, accommodation costs and a part of the organizational costs of joint conferences, and of publication costs.

Partner researchers are encouraged to obtain « in kind » and/or « in cash » co-funding from their institutions or from other sources of funding to cover all other types of expenses necessary to the successful implementation of the joint research project.

Proposals must be jointly submitted by one American researcher and one French researcher at the beginning of their career, with mid- to long- term positions at a research or higher education institution in the United States or in France (post-doctorate level, assistant or associate professor, *maître de conférences* or *chargé de recherche*).
